Professional Turret-Style Flare Tools

FF-2 & FF-237

Professional TURRET-STYLE FLARING TOOL & 37° Upgrade Kit

Professional grade turret-style tube flaring tool (FF-2 & FF-237) includes all dies and retaining jaws to create 45° and/or 37° flares in 3/16", 1/4", 5/16", and 3/8" O.D. steel, stainless steel, nickel-copper, and NiCopp® tubing. Create precision SAE inverted, ISO bubble, and single flares quickly. Convenient turret carrier keeps all dies ready & available for quick indexing and changeover, while quick release "T" handle ensures fast holder die changeovers.

- Create precise SAE inverted, ISO bubble, & single flares quickly.
- Includes retaining jaws & dies to flare 45° and/or 37° 3/16", 1/4", 5/16", & 3/8" O.D. tubing.
- Flare steel, stainless steel, nickel-copper, & NiCopp® tubing.
- Turret-style keeps all dies ready & accessible.

Upgrade Kit 37° Professional Turret-Style Flare Tool — FF-237

Upgrade your FF-2 professional turret-style flare tool with this kit, it works on 3/16", 1/4", 5/16", and 3/8" O.D. tubing. Kit includes 7 punches on a turret and 4 die blocks to quickly convert your FF-2 to create 37° flares. 37° flares are used in many custom, hydraulic and military applications where AN- or JIC-type fittings are used.

- Flare steel, stainless steel, nickel-copper, and NiCopp® tubing.
- Includes retaining jaws and dies to flare 3/16", 1/4", 5/16", & 3/8" O.D. tubing.
- Turret-style keeps all dies ready and accessible.
